

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING

M.S ENGINEERING COLLEGE, BANGALOE-562110.

One Day workshop on “Electrical Safety” on 05 September, 2014.

Report

The Inaugural programme of the workshop on “Electrical Safety” started at 9.30 am with an invocation song followed by ‘Lighting of the Lamp’ by dignitaries. Prof. Neelakantam from EEE department welcomed the gathering. Further, Dr. Badari Narayan, Principal-MSEC, in his speech, stressed the importance of electrical safety in our day-to-day life and the need of everyone knowing the basic precautions to be taken to avert electrical hazards. Dr. A George, HOD-EEE, thanked Prof. Neelakantam for his active role in organizing the workshop and wished that the workshop be useful to all the participants. The inaugural programme ended at 10 am.

Mr. P C Venkateshwarlu, Chairman, National Safety Council, Karnataka Chapter, took over the first session after a short break. He mentioned the major features of Indian Electricity Rules and elaborated the importance of grounding, safety precautions, safety issues related to generation, transmission & distribution with the help of dozens of video clippings. His speech was highly appreciated by the gathering. First session ended at 1.15 pm.

In the post-lunch session, Sri. Venkateshwarlu, mentioned the various safety measures to be taken to thwart electrical hazards. Videos of several fire fighting scenes, caused by electrical short circuit, were presented to the audience. Mr. Venkateshwarlu found the allocated time insufficient for clearing the doubts of the participants. The session ended at 3.30 pm.

In the short and sweet valedictory programme, Dr. Badari Narayan and Mr. Venkaeshwarlu distributed certificates to all the participants and wholeheartedly thanked them for attending the workshop.
