

One day workshop on “Renewable Energy”

8th Nov 2012

Summary Report

Report compiled by Dr. Cyril Prasanna Raj P. Dean(R & D) and Dr. Abraham George HOD (EEE)

The workshop was organized by Departments of EEE/ME and R & D centre MSEC, Bangalore by involving 120 participants from 5th and 7th sem of EEE/ME in seminar hall at MSEC. The session was inaugurated by the Chairman M.S. Educational Trust Sri Muni Swamy Raju. During the inaugural address Mr. Muniswamy Raju emphasized on the need of developing renewable energy sources and advised all the participants to understand the technology’s involved and the applications of renewable energy. He has also indicated the possibility of setting up a research lab in MSEC College premises on the renewable energy for the benefit of the students.

The morning and afternoon sessions of workshop were conducted by industrial expert Mr. Chandra Mohan from Goshakthi Renewable energies. Mr. Chandra mohan presented a PPT covering Biomass, Hydro power & solar power. Students could get clear ideas on these subjects during the interactive session. The subject was appreciated by all the students & faculty members.

During the afternoon session demonstration was carried out by a team of experts from the Goshakthi renewable energies with the help of proto type units on hydro and solar modules. Students were able to grasp the ideas of various technologies involved, during the demonstration session.

At the end of the session all the participants have expressed there satisfaction over the contents of the workshop and the program was concluded with vote of thanks by student representative.
